NO: 131, October 24, 6 p.m.

Afternoon 23rd Embassy received and took note of protests by several individuals including Deputy Noel Browne, head small left-wing National Progressive Democrats, visiting member UK Committee of 100, and representative Irish Campaign for Nuclear Disarmament (CND). In evening same individuals led demonstration march of 50-60 persons, mostly students, which was halted by police about 50 yards from Embassy. Browne claimed that he and others bitten by police dogs and kicked shoved when sat and lay down on street in protest against inability deliver note to Embassy. Scuffle received wide publicity and thus achieved presumed purpose organizers. 24th quiet so far with very few protesting telephone calls and no visitors except few students associated with CND who handed in note.
